

Hotti Product Instructions

Instructions and Safety for Operating Hotti

Now that you have your brand-new dog leash, it's time to start learning how to use it! Below is Hotti's list of instructions and tips for operating this one-of-a-kind leash safely and effectively, enabling you to maximize its power. You'll be empowered to operate, control, and maintain your leash easily, providing convenience during strolls with your pup.

How to Operate the Flashlight

- Press the button once to turn the flashlight on.
- Press it again to turn the flashlight off.

How to Operate the Heat Function Button

- Press once for low heat mode. Once it is activated, an orange ring will appear for five seconds.
- Press again for high heat mode. Once it is activated, a red ring will appear for five seconds.
- Press a third time to turn the heat off. Once it's off, a blue ring will appear for five seconds.
- A long press (3 sec) will remind you of what heat mode your handle is set to, indicated by its unique ring light.
- Double-press to check how much battery is left. This mode will be indicated with a green ring light.

How to Operate the RGB Light

- Double-press the button to turn the ring light on.
- Double-press it again to turn the ring light off.
- Do a long press (3 sec) to cycle through the color option and let go when the color you want is displayed.

Notes on Charging Your Hotti Battery

- When the red light flashes, it means that the battery is low and you should charge it.
- When charging, the green light will flash. The green light will stay on steadily when the leash is fully charged. The green light will disappear when the leash is disconnected from the charger.
